Education

VIT Bhopal University

B. Tech in Computer Science and Engineering

Cumulative GPA: 8.52/10

12th Standard

The Aditya Birla Public School

CBSE Percentage: 92%

10th Standard

Alpine Public School

CBSE Percentage: 92.6%

Bhopal, Madhya Pradesh

2022-2026

Raipur, Chhattisgarh

2021-2022

Solan, Himachal Pradesh

2019-2020

Projects

CodeTrack

Nov 24-Feb 25

- Engineered a full-stack authentication system with Node.js, Express, and MongoDB for secure user management.
- Created dynamic heatmap calendars with D3.js to visualize LeetCode and Codeforces activity, integrating real-time API data fetching.
- Developed an interactive consistency graph for LeetCode and Codeforces using D3.js, with real-time data integration, sorting, filtering, and responsive design.

Dynamic Route Optimization for Delivery Using Predictive Traffic Adjustments

Aug 2024

- Engineered a machine learning model to predict traffic speeds based on real-time features like weather and traffic data.
- Integrated predicted speeds into a dynamic optimization algorithm to adjust delivery routes efficiently.
- Reduced delivery delays and operational costs by optimizing routes in response to predicted traffic conditions.

Diabetes Prediction Model

Feb 2024

- Preprocessed and analyzed medical dataset to extract meaningful features
- Trained and tested the model using multiple algorithms
- Achieved 95% accuracy in predicting diabetic and non-diabetic cases.
- Used Python, Pandas, scikit-learn, and Jupyter Notebook for model development and visualization.

Achievements

- Solved more than 150 DSA problems on platforms like LeetCode, Coding Ninja and GeekforGeeks.
- Actively participated in Microsoft Learn Student Ambassador Program, completed Azure Fundamentals, and advanced to Alpha level.
- 3X badges on Microsoft Learn.
- 5 stars in Python on HackerRank.
- Anchored the Code Garuda college coding competition as part of the management team, ensuring seamless event progression and audience engagement.

Additional

Technical Skills: C++, Python, Java, HTML/CSS, JavaScript, SQL(MySQL)

Framework: Bootstrap, Nodejs, Express.js, Reactjs

Computer Science Core: Data Structures and Algorithms, Object Oriented Programming, Problem Solving, Database Management System.

Developer tools: Vs Code, PyCharm, Jupyter, GitHub

Certifications & Training: IBM Machine Learning in Python (Coursera)

IBM Gen AI, SmartBrigde Full Stack Developer MERN

The Complete Web Development Bootcamp by Dr. Angela Yu (Ongoing)

NPTEL Cloud Computing, NPTEL Marketing Analysis
