Projects

CodeTrack

Nov 24-Jan 25

- Engineered a full-stack authentication system with Node.js, Express, and MongoDB for secure user management.
- Created dynamic heatmap calendars with D3.js to visualize LeetCode and Codeforces activity, integrating real-time API data fetching.
- Developed an interactive consistency graph for LeetCode and Codeforces using D3.js, with real-time data integration, sorting, filtering, and responsive design.

Dynamic Route Optimization for Delivery Using Predictive Traffic Adjustments

Aug 2024

- Engineered a machine learning model to predict traffic speeds based on real-time features like weather and traffic data.
- Integrated predicted speeds into a dynamic optimization algorithm to adjust delivery routes efficiently.
- Reduced delivery delays and operational costs by optimizing routes in response to predicted traffic conditions.

Mover Website

Feb 2024

- Developed a dynamic mover website using HTML, CSS, and Bootstrap, incorporating modern web design practices.
- Designed a responsive and intuitive interface, ensuring seamless usability across various devices.
- Utilized Bootstrap components to enhance navigation and showcase services effectively.

Achievements

- Solved more than 100 DSA problems on platforms like LeetCode, Coding Ninja and GeekforGeeks.
- Actively engaged in Microsoft Learn Student Ambassador Program (Nov 2023 - Apr 2024) participated in global community sessions, completed Azure Fundamental Learning Path, and advanced to Alpha level.
- 3X badges on Microsoft Learn.
- 5 stars in Python on HackerRank.
- Anchored the Code Garuda college coding competition as part of the management team, ensuring seamless event progression and audience engagement.

Additional

Technical Skills: C++, Python, Java, HTML/CSS, JavaScript, SQL(MySQL)

Framework: Bootstrap, Nodejs, Express.js

Computer Science Core: Data Structures and Algorithms, Object Oriented Programming, Problem Solving, Database Management System.

Developer tools: Vs Code, PyCharm

Certifications & Training: IBM Machine Learning in Python (Coursera)
